Welcome & how to use this manual

This is your daily SOP as a Sunday Harmony sales closer. Read it once end to end, then keep it open while you work. It covers who we are, what we sell, how outreach works, how the admin dashboard fits together, and how a deal moves from first reply to signed agreement.

> **How to use it:** Sections 01–05 are the “why.” Sections 06–08 are the “where and how” in the admin. Sections 09–11 are call and close scripts. Section 12 is your first-week ramp and a short self-check.

Internal sales resource. Prices and package inclusions match the live Sales Kit. If something in the live admin looks different from a screenshot in your head, trust the live app and note it for your manager.

02

Who we are & how we sound

Sunday Harmony Consulting is a South Jersey marketing agency. We design the brand, implement the strategy, and build the systems a business actually runs on — Atlantic County and beyond, plus remote clients. Tagline energy: **Stop guessing. Start growing with a clear strategy.**

We serve three kinds of owners: established businesses whose brand or site fell behind; small local businesses that are hard to find online; and startups opening from zero.

Voice

- **Calm, confident, plain English.** No jargon. No vanity metrics.
- **We show our work.** Explain what you found and why it matters.
- **Treat every client like our only client.**
- **Lead with value,** not a pitch list. The free audit is the door.

> **Never invent results.** Use real audit findings. We do the work professionally; we do not guarantee rankings, leads, or sales.

03

The free audit (our wedge)

Every outreach opens with something useful: a free, written audit of the business's online presence. Goal of each email = **one reply**. No hard sell.

What the audit covers

- Google Business Profile and local "near me" visibility
- Website messaging, speed, and conversion basics
- Social presence and content consistency
- Ad spend efficiency, if they run paid ads
- Prioritized next steps in plain English

Reply in about **1 business day**. They can implement with us, on their own, or pause. No obligation.

> **Hook to remember:** free audit up front + a quick win within 30 days once they hire us. That is how we earn trust.

04

Packages & how to sell them

Prices are starting points. The free audit shapes the final quote. Printing, hosting, domains, plugins, stock, ad spend, and video are **not included** unless quoted. No long-term contracts; monthly work is month-to-month with 30 days' written notice.

When to recommend each

BETTER WEBSITE / FROM ZERO

→ **Business Launch**

NO BRANDING YET

→ **Business Essentials**

ONGOING SUPPORT

→ **Marketing Partner**

PROMO MATERIALS / SPECIALTY

→ Custom / production quote (print, apparel, wraps)

Sell a solution, not a laundry list. Primary close: Business Launch. Add Marketing Partner when they need steady monthly help after launch.

05

Sales process end-to-end

1. **Qualify & score** the prospect (0–10). Move to Ready to Contact when research is done.
2. **Outreach** with a personalized audit offer (Sales Kit → Outreach Emails).
3. **Reply → discovery call.** Ask needs questions; do not dump a price list.
4. **Recommend a package** from what they said + audit findings.
5. **Send Client Proposal** (template in Sales Kit). Stage → Proposal Sent.
6. **Follow up** calmly. Handle objections with fit + findings.
7. **Client Service Agreement** + deposit / first month → Won (Active).
8. **Handoff** to production / client relations with scope, promises, and payment status filled in.

Pipeline stages (admin)

STAGE	MEANING
Researching	Identified but not contacted
Ready to contact	Qualified and researched
Contacted	Initial outreach done
Responded	They replied or showed interest
Meeting scheduled	Consultation booked
Proposal sent	Pricing and deliverables presented
Negotiation / follow-up	Discussing the opportunity
Won (Active)	Agreement signed and initial payment received
Lost / Nurture (Inactive)	Not moving forward; keep for later

As a sales closer you mainly work leads handed to sales. Procurement owns early research; you own replies through close. Confirm lane labels on the live Pipeline board.

Prospect scoring (0–10)

Five factors, each 0–2: identifiable marketing weakness; active operating business; clear need; reachable decision-maker; appears able to invest. **8–10** high priority · **5–7** medium · **0–4** hold.

Ops sources outside admin

- **Prospects canvas** “Sunday Harmony Prospects” and the **Google Sheet master** are ops sources used by the team. Closers work day-to-day in Pipeline; ask your manager for sheet/canvas access if you need the full master list.

Daily checklist

- [ ] Open Today — clear overdue todos and calendar items.
- [ ] Work Pipeline — prioritize high scores and Responded / Meeting stages.
- [ ] Log every contact; send audit offers from Sales Kit templates.
- [ ] After discovery: recommend package, generate proposal, set Proposal Sent.
- [ ] Follow up; never invent audit results.
- [ ] Close: agreement + deposit/first month → Won → complete sales handoff fields.
- [ ] Mark Lost/Nurture honestly when the timing is wrong.

07

ALWAYS
Personalize one real detail · under 150 words · one ask · honor opt-outs

- Stay on marketing: brand, website, Google, social, print.
- Include mailing address in the signature; real reply-to; remove “no thanks” immediately.
- Sound like us: calm, confident, plain English.

09

Discovery call outline

Once they reply, do not send a price list. Uncover need, then map to a package.

1. How are you currently handling your business's marketing?
2. Are you satisfied with your current website and overall online presence?
3. What are the biggest challenges you're experiencing when it comes to attracting customers?
4. Are there any marketing projects you've been wanting to complete but haven't gotten around to?
5. If you could improve one thing about your business's marketing right now, what would it be?

> **Map answers → package:** better website → Launch · no branding → Essentials · ongoing support → Marketing Partner · promo materials / specialty → custom or production quote. Close the loop by offering the written audit findings + a clear next step (proposal).

10

Proposal, agreement, payment

Flow

Discovery → recommend package → **Client Proposal** → **Client Service Agreement** → collect deposit or first month → kickoff. Update Pipeline to Proposal Sent, then Won when paid and signed.

Payment (from agreement / proposal templates)

- **One-time:** ~50% non-refundable deposit before work; balance at milestones or on delivery; ownership transfers on full payment.
- **Monthly:** billed in advance (1st); first month before work begins; cancel with 30 days' written notice.
- **Invoices:** due ~7 days.
- **Revisions:** typically up to 2 rounds on one-time deliverables.
- **No guarantee** of rankings, leads, or sales — we perform professionally.

Fill sales handoff fields before Client Relations takes over: services purchased, scope, deliverables, deadline, promises, expectations, agreement signed, payment status, proposal Doc link. Confirm required fields on the live prospect file.

11

Objection handling cheat sheet

THEY SAY	YOU RESPOND
"Too expensive."	Acknowledge. Reframe as starting points shaped by the audit. Offer Essentials or a phased Launch if budget is the only blocker — never invent a discount. Compare to the cost of staying invisible.
"We're too busy."	That's exactly why the audit and Partner exist — we do the heavy lifting; you approve. Offer a short call or a written audit they can read on their time.
"We already have someone."	Respect it. Offer the free audit as a second opinion they can keep. Stay warm for nurture.
"Can you guarantee leads?"	Honestly: no. We show our work, aim for a quick win in 30 days, and report in plain English. Rankings and buyer behavior are outside anyone's control.
"Send me pricing."	Gladly — after five minutes of discovery so the number matches their need. Or send the audit first so the proposal is specific.
"I need to think about it."	Fine. Confirm what they're weighing. Offer to answer one open question. Set a follow-up date in Pipeline.
